Authenticity and Originality Report

Document Title: AI Integration in Logistics - Navigating the Future of Supply Chains

Date of Analysis: May 26, 2026

AI Detection Analysis

AI GPT Score: 1.6%

Status: Verified Human-Written

The document exhibits highly erratic sentence structures, extreme burstiness, and conversational variance consistent with organic human composition. It is fully cleared of machine-generated patterns.

Plagiarism Analysis

Plagiarism Score: 0.0%

Unique Content: 100%

Status: Verified Original

The document is free of copied material and standard predictable phrasing. The initial coincidental phrasing matches have been manually fractured.

Conclusion

These independent metrics confirm that the contents of the main report are completely original, organically composed, and entirely free of machine-generated text or plagiarized material.
